

A TOUCH OF THE TROPICS still exists on the campus. The Henry Marshall Tory Building has hidden it from view, but the Greenhouse is still open to visitors—and can still stir up memories of warmer days and warmer climates. The cyclamen shown here is only one of 175 genera of tropical plants growing. The Greenhouse is open from 8:30 a.m. to 4:30 p.m., Monday to Friday, and from 2 to 4 p.m. Sunday.

## Department of Religious Studies to be established

A new Department of Religious Studies will be created at The University of Alberta. The Department has received the approval of the Board of Governors and General Faculty Council.

The new Department will make it possible to supplement and expand the present list of courses on religion offered to undergraduate students, and to develop programs for honors and graduate students, according to Dr. Walter H. Johns, President of the University.

"The aim of the Department will be to develop understanding of religion—both

Christian and non-Christian—rather than commitment in any one area," he said.

At present, courses are offered in the sociology, philosophy, psychology, and anthropology of religion, as well as in comparative religion.

Future courses will cover such topics as theology, Biblical criticism, Hebraic culture, and other non-Western religious traditions, as well as additional classes in comparative religion.

A Chairman of the new Department of Religious Studies has not yet been named. It will be part of the Faculty of Arts.

## Staff news

### FACULTY MEMBERS HONORED

Dr. William Knill, Professor of Educational Administration, has recently been admitted as a Fellow of the Canadian College of Teachers.

Murray MacDonald, Sessional Lecturer in Elementary Education, was awarded an honorary Life Membership in the Canadian Society of Education through Art at their recent Conference in Montreal. The award to Mr. MacDonald is in recognition of his services to art education in Canada.

### PAPERS PRESENTED

L. C. Green, Professor of Political Science, has just returned from a lecture tour in eastern Canada. During the seventeen day tour, he spoke to the law faculties at the Universities of Toronto, Ottawa, McGill and Dalhousie, to the Department of Public Law at Carleton University and to the Department of Political Science at the University of Western Ontario, London.

Dr. A. Kaufman, Associate Professor of Educational Foundations, presented a paper at the annual conference of the Midwest Philosophy of Education Society in Chicago on November 11. His topic was "Formal, Informal, and Unintended Education."

### RECEIVES CANADA COUNCIL GRANT

Dr. Brendan Gail Rule, Assistant Professor of Psychology and Educational Administration, has been awarded \$7,050 by the Canada Council for research on the psychological effects of stress and anti-semiticism.

### PREPARING EDUCATION GLOSSARY

Dr. E. D. Hodgson, Professor of Educational Administration, is part of an international team for a project entitled "A Glossary of Terms in Educational Administration." Dr. William Walker, Chairman of the Department of Education at the University of New England in Armidale, Australia, will co-ordinate the team, which also includes members from New Zealand, England and the United States. The glossary will be published in the Australian *Journal of Educational Administration* in 1968.

### THESES WRITTEN ABOUT COMPOSER

The work of Miss Violet Archer, Associate Professor of Music, has been the subject of two masters theses, one at Laval University, Quebec, the other at the Eastman School of Music, Rochester, New York.

## *Glenrose Hospital and the University affiliate*

An affiliation agreement between The University of Alberta and the Glenrose Provincial General Hospital was signed recently.

The new agreement recognizes the Glenrose Hospital as a teaching hospital affiliated with the University to be utilized by undergraduate medical and paramedical students and for graduate training programs in clinical specialties.

The Hospital offers unique facilities in Alberta as a school hospital where handicapped children may receive treatment and education at the same time, and is a convalescent and rehabilitation hospital as well. "It thus provides unusually valuable research and teaching opportunities to us," said Dr. Walter H. Johns, President of the University, "and we are very grateful that the Hospital's Board of Management has made arrangements with us for this promising association."

Signing the agreement in the office of Dr. Johns were T. D. Baker, Chairman of the Board of Management at the Glenrose Hospital, and Louis A. Desrochers, Vice-Chairman of the Board of Governors of The University of Alberta.

The agreement will open the way for further co-operation in the field of education of medical and health sciences personnel, in the development of medical research and in the provision of patient care and community service between the two institutions.

Medical staff of the Hospital serve as members of the Faculty of Medicine and members of the Faculty are also on the medical staff.

## *Names for buildings sought*

New construction, and moves by departments from building to building, will mean that almost two dozen University buildings will be without distinctive or appropriate names in the next few months. Several of the nameless buildings are maintenance garages, and similar facilities (they will no doubt be officially named "Maintenance Garage" etc.).

Appropriate names are being sought for the following major buildings:

F O L I O  
The University of Alberta  
Edmonton, Alberta  
F. William Samis, Editor  
Published for the academic staff  
and other interested persons by  
the Public Relations Office,  
telephone 432-4201.

AUTHORIZED AS SECOND CLASS MAIL BY THE POST  
OFFICE DEPARTMENT, OTTAWA, AND FOR PAYMENT  
OF POSTAGE IN CASH. POSTAGE PAID AT EDMONTON.

The Mathematics-Physics Building no longer contains the Department of Mathematics, and the assumed name of Physics and Computing Science Building is sometimes used. A permanent name is needed.

Temporary Laboratory "A" is getting less temporary all the time. It is just west of the Nuclear Research Center.

Confusion is bound to arise between the present Agriculture and Biological Sciences Building and the new Biological Sciences Building. New names may be in order for both of them.

Likewise, there is now an (old) Engineering Building, and a (new) Engineering Center. Either or both might be renamed.

The Old Students' Union Building will soon contain the offices of the President and other senior university officers. A name must be found for it.

Smaller buildings with confusing names include the two Greenhouses (one on the campus, one at the University Farm), the two Vivariums at Ellerslie, the Civil Engineering Building (containing a gravel river bed for hydraulic studies) at the Ellerslie Farm, various other buildings at the Ellerslie Farm, the building housing a telescope at Devon, and the temporary construction for the Health Sciences Center south of the Research Council of Alberta.

Members of the staff are encouraged to suggest appropriate names. They may communicate with the Chairman of the Committee on Naming of New Buildings, E. V. Hamula (Director of Public Relations), or other Committee members, A. A. Ryan (Provost and Executive Assistant to the President), Dr. L. G. Thomas (Professor of History), G. Lyall Roper (University Senate, c/o Commercial Printers, 10056-109 Street, Edmonton, Alberta), A. W. Anderson (President, The Students' Union), or R. E. Phillips (Director of Physical Plant).

## *Holiday accommodation at Banff School*

Accommodation for vacationers is available at the Banff School of Fine Arts, when space is available. The Christmas holiday period is one of those times, and family groups are welcome. Information and reservations may be had by writing to the Banff School of Fine Arts, Banff, Alberta, telephone 762-3391.

## *Christmas Concert to be performed twice*

The annual Christmas Concert of the University's Department of Music will be performed twice for the first time, this year. The first performance will take place on Sunday, December 17, at 3 p.m., in Convocation Hall, the traditional setting for the

festivities. The second performance will take place the following evening, Monday, December 18, at St. Faith's Church, 93rd Street at 118th Avenue.

The program is under the direction of Dr. Arthur Crighton, Associate Professor of Music. The student choir of 150 voices will sing "And the glory of the Lord" and the "Hallelujah" chorus from Handel's Messiah. Walter Kaasa will read passages from the Christmas story, and these will be interspersed with carols, some of which will be sung by the audience. A student orchestra will perform Bach's Brandenburg Concerto, No. 4.

At St. Faith's Church a candlelight procession led by the church choir will precede the concert.

The public is invited; there will be no admission charge.

## *Boreal Institute opening new quarters*

The official opening of the new quarters of the Boreal Institute at The University of Alberta will take place on December 8. Official ceremonies will begin at 4 p.m. at the Institute, in the renovated old Central Cafeteria, followed by an informal reception at the Faculty Club.

The Boreal Institute offers students in many fields specialized library facilities, information on northern activities and research areas, and grants-in-aid to pursue projects north of the boreal tree line. Professor J. Jameson Bond, Executive Director of the Institute, sees the future expansion of the Institute's program as "an important step toward the fulfillment of Edmonton's geographical role in Canada."

A display of Eskimo and Indian artifacts is being prepared for the opening.

### ROYAL BANK AWARD FOR 1968

A cash grant of \$50,000 and a gold medal will be awarded to a Canadian or group of Canadians in recognition of outstanding achievements, the Royal Bank of Canada announced recently. The purpose of the award is "to honor a Canadian citizen or person domiciled in Canada, whose outstanding achievement is of such importance that it is contributing to human welfare and the common good."

Under the terms of the Royal Bank Award (1968), the winner may use the proceeds in any way he sees fit. If two or more persons have shared in an achievement which warrants an award, they may receive it jointly.

Nomination for the award must be made to the Selection Committee by two or more persons on behalf of the potential recipient. Nominators should be prepared to supply supporting evidence, such as published material and signed statements, as well as the initial letter of recommendation.

Outstanding achievements suitable for the award may be in any field, including the natural and social sciences, the arts and humanities and the business and industrial world.

The Selection Committee is made up of six Canadians who are not directly connected with the Royal Bank. They are G. Maxwell Bell, publisher of *The Calgary Albertan*; the Honourable J. V. Clyne, Chairman of the MacMillan Bloedel organization, Vancouver; Dr. Roger Gaudry, Rector at the University of Montreal; Dr. Henry D. Hicks, President of Dalhousie University; Dr. O. M. Solandt, Chairman of the Science Council of Canada; and Dr. A. W. Trueman, Chancellor of the University of Western Ontario.

Nominations should be submitted to the Secretary of the Selection Committee, P.O. Box 1102, Montreal 3, Quebec, before February 28, 1968.
